sideration of our venerable Chief Magistrate the various reasons why this young eister should not be kept out in the cold any longer. The Great Father smiled benignly, winked his sinis-ter eye treacherously, and promised to lay the subject to his heart and take such course as the honor, peace and welfare of the whole country required—over the left. The Kansas gentle-man then howed himself out of the august presbuckshot war, and preserved among the tropales of that memorable campaign. Mr. Arny,
is said to have tossed off a glass with the sentiment: "Here's to Free Kansas, may she speeddily be admitted into the family circle of the
Union." The President responded, hob-nobbing
his glass: "Here's to the Lecompton Constitution; rejected by the builders in Kansas, it has
become the chief corner stone in New Mexico."

Speaker, the Southerners have never gone out-side of the slave-holding ring. There are 26 Northern Democrats in the house, who repre-sent more than two-thirds of all the "Democratic" voters in the nation. But the slave holders have passed them by with contempt. They will trust no man from a free State; they are too intensely "national" to vote for any man who hails from the north side of Mason & Dixon's line. Not even the "nigger catcher" support no man not known to be a Disunionist, and hostile to Northern and Westsis. This "General" Millson, of Va., promise—but the reason was that he feared that the South would not be able to secure Kansas-and that it would open the door for the "Northand that it would open the door for the "North-era Gotha" be pour south of 36.30. But once repealed, he became a leader of the Lecompton swindle. He advocates a shave sode for the Territories; and chaims that the South has a constitutional right to Africanize as much of apostle of motern Democracy that capital should own labor, and that free society is a failure. He is a deadly enemy of a Pacific Rail-road; of a Free Homestead Law; of appropriaroad; of a Free Homestead Law; of a tions for River and Harbor Improve of any protection or encouragement, careet or incidental, to Home Manufactures; because free labor would be benefited by such meas-ures. His patriotism comprehends nothing beyond the nigger interest; his "Astionalism" is bounded by the line of Mason and Dixon.

He looks upon the North as a semi-civilized province existing for the benefit and pleasure of the lords of the lash. Yet this impersonation of sectionalism, disunion and comity to Northof sectionalism, disunion and comity to North-cre fights, received the unbroken vote of the 25 Doughfaces: Has all manhood departed from Northern Democrats? Is the last restige of self respect gone? It really seems so. The "Grecian Orator," of Springfield in your The "Grecian Orator," of Springfield in your State, got a couple dozen voice the other day for Speaker after Boscok had withdrawn, and before the slaveholders had fixed upon a substitute; but the votes came from the North. Southern Democrats would not even give a Danile a complimentary vote. So "National" are they in feeling that Northern Democrats are looked upon merely as white siggers, to do their dirty work, and not as cough to all at the first

table with their lordships.

I wish to heaven one thousand Democratic farmers and mechanics from each Congressional District of Illinois could have been in sional District of Illinois could have been in this city during the past three weeks, and have this city during the past three weeks, and have made on the Demothis city during the past three weeks, and have listened to the specches made on the Demo-cratic side of the House. They would have heard scores of Southern Demowas elected they would help to rend the Union to fragments; that if slavery was not allowed to extend into free territeries the South would go out of the Union. They would have heard these raving orators urge Southern Democrats to proclaim that if they were besten at the polls next year by the Republicans, they would resist the inauguration of the successful candidate! That the South would Rev. United States, in a legal and constitutional manner, bested a Republican President; and they would have heard there spouters declare that Congress must pass a Slave Code protecting Slavery in the Territories against unfriendly legislation, and that if Slavery was not allowed expansion within the Union. They would have heard appeal upon appeal addressed to the South Americans to come over to the standard of the Disminon Democrats, and thereby preach a "Italias South" against the people of the North. A lively scene occurred in the House a short time before the adjournment to-day. The second one of the series will be given at the Cadet's Rooms next Thursday evening, and we are suthorized to say that no expense or pains will be spared to make this party equal in every respect to the first.

The price for single tickets, including supper, will be as before, \$2.00. Tickets for the balance of the series, \$8.00. Names can be handed to any member of the Cadets, or Committee, or left with the Clerk of the Company any time during the day or evening at the Armory. This course is necessary to secure tickets, as no one will, under any circumstances, be admitted unless previously elected members.

Microscorsm or Cuicaco Maxuyacruz.—We passed an hour on Saturday in a very lateresting survey of the wonders of the microscopic world. The instruments we used ranged in power from 30 to 800 diameters, and were pronounced by all judges who have seen them to purposes.

Then perhaps 1 i e architect has done in share, the Sexton cannot or will not perform its own part of the duty. One would think thee may exist among Church Sextons some pofessional league with their brethren of the mittook outside—a kind of Sexton's Medical Protection. fessional league with their brethran of the mattock outside—a kind of Section's Mushad Protection and Anti-Vestilation Society. Better rearn to the "brave days of old," when fires in Churches were unknown, than sit the sermon through in a temperature like that of a patent Incubator.

We Americans are a patient people. We show whomsoever may choose, to supply the amosphere we breathe, with the fumes of his cigar, or other form of the weed, perhaps dashed with a suspicion of rot-gut whisky. As a people we dispute no one's right to sallvate intepuddles the floors of our cars and lecture tooms, to be swept by the silks of our dames. Butlet us beg the santons to join us is defeating the purposes of the arch enemy of mankind, in a direction where he certainly steals away a west amount of good preaching, especially it close winter weather, by the very simple device of no estilation. We dure not think of how he furthers his other malign purposes of sioning up mortal probation, through the agency of the vile atmosphere breathed over and overagain, scented with patchouly and varied ferriery, with jockey-club and plug tobacco, and India rubbers, with bad teeth and sickly lungs.

Dear Sextons, allow a liberal space of time for churches to become warmed, and don't churlishly refuse to warm "more of the same nort" for us, when we have each breathed our whare. Give each of us three nints of your and read and our whare. Give each of us three nints of your

ing survey of the wonders of the microscopic world. The instruments we used ranged in power from 50 to 800 diameters, and were pronounced by all judges who have seen them to be of a most superior, class. What is better, they were made in Chicago, by F. Arsold, a mathematical instrument manufacturer of much reputation, who has recently turned his attention to this class of instruments. The lenses were made in Lake county, and the other paris of the microscope in this city. Even the brilliant mirror reflestor is a compound of several metals by Mr. Arnold. In every part of these beautiful instruments he has introduced novelties of his own in applications to secure case and perfection of adjustment.

One of Mr. Arnold is instruments, a 1900 diameter power, is now the property of a professor in one of our Medical Colleges, who proneunces it one of the best he has ever seen. Indeed Louis-Manus, the well-known Practical Optician at No. 79 Clark street, a large dealer in optical instruments, states that Arnold's instruments count the best ever imported. The prices range from 335 to 880, and Mr. Manus has already filled several orders for microscopes from the rooms of Mr. Arnold, at No. 55 Lassille street. He can show these instruments at his store on

in these days would set a continent on rec's frosty night, a big sleigh, blood herses, a long whip and two girls—with ourself sandwiched between them. Ye gods ! how we resewed our youth "like the eagles!" Shade of Johnsy Beedle! how we skimmed the hollows, and whizzed helter skelter down the long hills, as though we were running a steeple-chase with old John and his double tandem, or were a will-o'-the wisp gone wild! Then the soft words and melting speeches, and hands that strayed into each other, and hisses caused by the secidental joiting of the sleigh—heavens! how the dear creatures 'eys danced, and their checks tingled with the delicious sport. These were the times when sleighing was aleighing, and love scrapes done up, not in the stiff, conventional style of the foppish babboons of to day, who perform all matters of that sort by cube root and the rule of decimal fractions, but in the hearty, eldfashioned, home-made way. Ah! the waters are not what they once were, the horses don't trot as they used to, and as for getting up your tearing sleigh-rides by moonlight, with a doses vehicles, full-blooded coursers, all the pretty girls in a county, and soft words, aong, abouts, and merry laughter by the hushel, why, we Subath School, conducted the exercises of the svening, which consisted of singing and prayer, and an address by Rev. Mr. Logan of Illinois—Hoe. John A. Logan M. C.—is evidently backing down from the po-sitions assumed in his harangue, a few day ago. Then, that gentleman boasted that h and his constituents were ready upon call to do the "dirty work" of the Democracy of the South; but being pricked with the goad that Parasworth carries with him, backs down with inglorious celerity, and characterises as false that which, by implication, he, not more than ten days ago, announced as true. Mr-Logan is wise in retiring. In company only with Larrabee of Wisconsin, and Vallandigham of Ohio, in the extreme front of the great struct of doubt-faces, his nosition must have army of dough-faces, his position must have been uncomfortable indeed. Socered at by the Republicans in front, and stabbed by Monearly martyrdom by no means agreeable to the youngest and vainest man in the House. Dis-cretion, in an Iffinois Democratic Congressman is a quality that we are not often called upon to commend; but in Mr. Logan's case it is conspicuous that in aimple justice to his friends we make this public mention thereof. We expect when he is touched by Lovejoy's lance

The routine of business is something like this: Clerk calls the Debsting Club to order at lts; Sergeam at Arms orders all persons not members to leave the hall—some obey but oth-

members to leave the hall—some obey but others don't. A prayer is offered up in the presence of an unlistening audience. The Clerk reads the proceedings of the previous day (not much to read.) Then some member jumps up and calls out in a food sharp voice, "Mr. Clerk, I arise to a question of privilege." The privilege questions are generally replies to some newspaper criticism that has been made on the Honorable gents. Sometimes the explanation consumes but a few infinites; at other times it is rouse to set in a staged on general politics. consumes but a few injustes; at other times it is a ruse to get in a speed on general politics of an hour's length. Take an example of the former kind; yesterday Gimer, of N. C., caused to be read an attack made upon him by the N. Y. Day Book; charging that Helper's book had been extensively circulated in his district the rest ware and that a court had been rehad oeen extensively circumstend in his started for the past year, and that a copy had been re-ceived by himself six months ago. He said that the article so far as it applied to him was an un-mitigated and malicious fabrication; that ever since he had refused to act with the Democrats since he had refused to act with the Democrats on the Lecompton Constitution which he then and now believed to be an infamous fraud and swindle on the people of Kansas, he, had been pursued by that party with the ferocity of a tiger and the malignity of a devil, but he defied the whole pack—let them do their worst.

Mr. Logan, of Ill.—Is there in your district of distinction between negroes and white prole? Do they all rote together?
Mr. Farnaworth—Said that so far as a question of equality was concerned, the Reribican party did not believe nor maintain it;
ut the Republicans required no laws restrainto the Republicans required no laws restrain-Legislature of Illinois had not voted for the abrogation of all laws in reference to the distinction between whites and blacks as regards their testimony in the Courts.

Mr. Farnsworth admitted that a Republican member had introduced such a law. If he did he ought to have done so.

Mr. Logan—Exactly. Did not the Republican members of the last Legislature vote to expunge the word white from the law to as to make it read whites and blacks.

Mr. Farnsworth did not know. In his State they admitted a man who did not believe in a God, to testify, also a man covered with pollution, and he sould not see why they abould exclude the negro, but it was the true test to submit the credibility of a witness to the jury. If the law as aff that when a man was assuited and wronged by a villainous Democratic white man, a Democratic doughface should not be permitted to testify, he said it was an infamous statute that prepented him. Was the gentleman statisfied Mr. Logan—" If the gentleman is satisfied."

Mr. Farnsworth How in the Democracy?

Air. Logan—" We from the Democracy?

Air. Logan—" We for the Course of Judge Douglas in reference to the Territorial question. centending that he (Douglas) placed himself on both sides of the question. The Republican party was founded upon principle, but the Democratic parity of Illinois was a manu-orally-plug parity, worshipping Douglas. Whatever Douglas said was law to them and right. Here he would ask his colleague if he agreed?

Mr. Fouke. We worship Stephen A. Douglas and you worship Fred. Douglas. (Great langiter.)

Mr. Farnsworth then inquired whether his ness, not yours."

Mr. Farnsworth, in reply, held that it was also the bust ess of the Republican party, and asked I the gentleman."
